

BOARDS & COMMISSIONS

The Appointments Office supports the Governor in meeting his major obligation to appoint qualified, representative and appropriate people to positions on regulatory and licensing boards and commissions, university trustees, advisory boards and task forces. We are continually looking for qualified candidates to serve on 450+ boards and commissions that oversee a large variety of industries and make decisions that affect the day-to-day lives of Alabamians.

This list will change monthly, and will include notice for positions that we are looking to fill in the next 30-60 days. This will allow you the opportunity to make nominations and be heard on these appointments. Please bear in mind that the Governor is often statutorily required to select appointees from a list of various association nominated candidates. We are always glad to hear from you, and appreciate your input on the appointments process. Interested candidates may submit their resume/bio to appointments@governor.alabama.gov.
